## Dataset metadata

This dataset is about Qualifications and Students. Information within this dataset comes from responses to a number of questions relating to qualifications and whether people were full-time students or schoolchildren from the 2001 Census. The dataset also shows the number of students and schoolchildren in the area by age, and full-time students by economic activity.

Statistical Disclosure Control

Figures have been randomly adjusted to avoid the release of confidential data

## Variables

### geography

There is no further information about geography.

### Qualifications

There is no further information about Qualifications.
